

Messages.cpp

Procedural.cpp

Messages.h

```
graph TD; A[Messages.cpp] --> C[Messages.h]; B[Procedural.cpp] --> C;
```

The diagram illustrates a dependency structure where two source files, Messages.cpp and Procedural.cpp, both include the header file Messages.h. The source files are represented by white boxes with black borders, while the header file is represented by a solid black box. Blue arrows point from each source file to the header file, indicating the inclusion relationship.
